## LOCAL NEWS.

For City loans call on W. S. Pagan.

How it rains.

Our farmers are eating new potatoes.

L. K. Soper has gone east on an extended visit.

A city directory is the next thing for Dodge City.

The A. O. U. W. will hold a social at their hall this eve.

Owens & Kirkpatrick at the TIMES office have plenty of money to loan.

Mr. W. S. Pagan sold his residence on R. R. avenue, last Monday, for \$1500.

Mrs. E. T. Brockman left last Saturday to visit friends in the east during the summer.

Hicks and Sawyer's minstrels at Kelley's opera house soon. Will give dates in next issue.

Rainfall at Dodge City, Kansas, June 16th, 2.80 inches in 25 min. 3.25 inches in 45 min.

Farmers are happy. The biggest crop ever known in Ford county will be raised this year.

Mrs. C. A. Patten, the accomplished pianist of Dodge City, is making a brief visit with friends in Chicago.

A number of samples of corn, oats and turnips were left at the TIMES office during the past week.

There has been a watchman stationed at the lake north of the city. No bathing will be permitted hereafter.

The Y. C. A. held a social on Wednesday eve in their hall, which was well attended. All had a good time.

The TIMES office is supplied with the finest line of calling cards in western Kansas. Come and see.

If you have farm lands or city property to sell, place it in our hands and we will advertise it in the TIMES free of charge.

Some of our business men would like to own some of the lands that they let go for a song a few years past.

A number of business men had their cellars filled with water last Tuesday evening. Plenty of work Wednesday morning.

Hicks and Sawyer's Minstrels will give an entertainment in Kelley's opera house in the near future.

George W. Deahl, near bloom, was in the city today, and reports crops in good condition in that vicinity.

Those who have property to rent, place it with us and we will advertise it free of charge. If you want a good tenant see us at once.

The brick burned for the college building are of excellent quality. The work on the main building will now progress rapidly.

The term of the presiding elder, in the Methodist Episcopal church has been extended from four to six years and the term of pastorate from three to five years.

The Italian bear show did not remain long on our streets last week. Marshall Carter showed him the best way out of town, and he left.

The election of teachers took place last Tuesday evening. The teachers selected are generally known and will give good satisfaction. Full particulars in the "column on education."

The Woman's relief corps of this city gave a very interesting entertainment last Thursday and Friday evenings. Proceeds to go toward building a fence around the G. A. R. cemetery.

Some of our correspondents are too busy in the harvest field this week to send in their regular reports, but we console ourselves with the reflection that it will be good when it comes.

If you want first class job work at low prices, come to the TIMES office and be convinced that we can do work cheaper and better than any office in western Kansas.

The click of the reaper is heard making sweet music in the land. The broad smile and cheerful voice of the farmer tells you that he is more than satisfied with the success of his labor.

Crops are good and money easily obtained on good farm lands in Ford county. Owens & Kirkpatrick, at the TIMES office can furnish you money at low rates and on easy terms.

Oats harvesting is going on all over the county. The yield is much better than was expected. The Texas oats are in the field, and are yielding immensely to the entire satisfaction of the farmer.

The snows are melting in the mountains and the river is raising rapidly. This means a great deal of rain for June and July. A big corn crop is assured for southwestern Kansas.

The business houses of the city will be waited on during the next few days in the interest of the "Standard Dodge City directory." All public spirited citizens will feel a pride in the completion of this enterprise.

The political pot is now boiling with a vengeance. The candidates are now in the field, and the parties stand committed. Now let them convince the people that their particular party is laboring for the general good, and all will be well.

Mr. L. T. Peck has sold to eastern parties, several quarter sections of land for Mr. E. St. John of Chicago, general manager of the Chicago, Rock Island and Pacific railroad.

Reports come from all over the county that there was never a brighter prospect for a large corn crop. The farmers who have planted their corn too thick or have permitted it to get weedy are complaining. That class of farmers always will find fault with any country.

Southwestern Kansas had the heaviest rain ever known last Tuesday evening. All the crops except corn is now assured. The corn is now in silk and with this rain there is certain to be an immense crop. One farmer remarked that he couldn't haul in all the corn he would raise this year.

The lakes north of the city are not very safe for children to play in. The accident of last Saturday is a sad warning to parents. It is to be sincerely hoped that such care will be exercised that such an accident will not happen again in our city. Yet it is liable to happen.

In the first week in July we will issue 5000 extra copies of the Dodge City TIMES to be distributed east. List your property with us and we will advertise in this extra edition free. We are establishing correspondents and local agencies in every state and will have every facility for handling your property successfully.

The Santa Fe men business at last. A large force of men are at work in the yards at Topeka getting out the wood work and material for a large roundhouse and machine shops. The W. P. & W. will be built into Dodge at once. An elegant brick depot and eating house after the style of the one at Newton will be built this summer. All is well that ends well.

Frost says he is not so hide bound politically that he cannot give all the political news. We are glad that we were able to beat a little sense into his cranium. Only two weeks past he raised a terrible howl because the TIMES devoted two columns to prohibition news. Since the Bro. is converted and intends to be better in the future and give the people some news, we are willing to drop the matter.

If your business will not pay expenses on account of depression of trade, reduce the expenses till the business will pay them. "Pride goeth before a fall." Better lay pride on the shelf, roll up your sleeves and wade in to win. Overcome and you are stronger and have developed ability that will insure you a standing that will be future wealth. Any man can stand during a calm and plenty but when the hurricanes of financial adversity blow, is the testing of your ability and soundness.

Mrs. H. Hood is in the city for the purpose of following the ordinance for numbering the streets with a complete and comprehensive "Standard Dodge City Directory." It will be to the direct advantage of all to assist this enterprise with the advertisements necessary to cover the expense of publication. This is a much needed work as all will see. Should Mrs. Hood meet with patronage necessary, she will prosecute the matter and be prepared in about two months to furnish a directory of which Dodge City will be justly proud. All public spirited citizens should see that this enterprise is strengthened by a cheerful support.

There will be a 4th of July celebration conducted by the Sunday schools of Wilburn and vicinity at Lawbert's grove, (better known as Emerson's grove,) three miles west of Wilburn. Exercises will consist of music, oration and other short addresses, declamations, etc. Plenty of refreshments will be for sale at the stands. We will have a regular old-fashioned basket picnic.

Good speakers will be secured. The grounds are unsurpassed and great pains will be taken to make the entertainment a success. All are cordially invited. By order of committee.

We have a disappointed lot of farmers in Ford county. About two thirds of the farmers were complaining that if it didn't rain in the next week it would be bad for the millet. They kept it up even while the clouds were forming in the southwest. But now since the whole country has been thoroughly soaked and even their cellars filled and railroads washed out they wear a disappointed look and have already commenced predicting that something will yet happen to destroy their crops. Very few of these croakers have enough crop in to make them a living if it did rain, and still a less number know how to farm. We are glad to know that there are farmers all over the country who have been here for years and have made money and are making a success at farming, that they have immense crops this year and are happy in the anticipation of an abundant harvest.

### RESOLUTIONS.

LEWIS POST No. 294.

DODGE CITY, JUNE 19TH 1888.

WHEREAS: Our comrade M. W. Sutton has suffered the loss by death of his most excellent wife. Therefore, be it

RESOLVED, that we as a Post, do hereby express our deepest regret in such bereavement and tender our most cordial sympathy to our comrade in this darkest hour of his experience, and that comrade Sutton be officially apprised of this action, and the city papers be requested to publish the same.

H. L. STYLER, Commander.  
M. D. LOSEY, Adj't.

### RESOLUTIONS.

LEWIS POST, No. 294 G. A. R.

DODGE CITY, JUNE 19TH 1888.

WHEREAS: In the mysterious Providence of God, our comrades Rob't L. Buchanan and J. F. Baldrige have each lost a son through accidental drowning on last Saturday, and under peculiarly trying circumstances. Therefore, be it

RESOLVED by this post that we express the deepest sympathy for our comrades and their families in their great bereavement, which has so suddenly and darkly overshadowed their homes.

That the Adjutant be instructed to furnish the families certified copies of this action and request the publication in the city papers.

H. L. STYLER, Commander.  
M. D. LOSEY, Adj't.

An eighteen stall round-house is to be built at Dodge City, by the Santa Fe R. R. The work will be commenced on Tuesday. The frame work of the building is being done at Topeka. After so long waiting, Dodge gets the needed improvements. Dodge is on the eve of a boom.—Cimarron New West Echo.

The New West Echo tries to avoid the sensational, though an occasional spurt of sanguine expectation might be inferred sometimes. We have refrained from mentioning the movements of the Rock Island railroad, for a few weeks past, for the reason that we knew nothing particular of them. But on Saturday we received some information which is important to us as being reliable. The chief engineer of the Rock Island road gives the information that his road will commence the surveying in less than ten days of an extended line from Dodge City west, up the Arkansas river and the work of building will be pushed soon thereafter. The Rock Island officials made an excursion through this part of the state a few days ago, passing west on the Santa Fe railroad. Their visit was significant as appears from present observations. The year 1888 will witness a larger amount of railroad building than in former years.—Cimarron New West Echo.

### THE GREAT STRIKE.

Hello! Hello, there Mr. Digestion! What's the matter with you down there? Hello! Mr. Tongue is that you? Oh, everything is wrong down here. The hands in the Gastric Works have "struck." The Food Assimilation Company have "shut down," and the Bile Supply Pipe Line can't handle their product, and it has overflowed the whole region. Yes! All stock on hand in my apartments has "heated" and "soured." I have stopped work altogether. Can't move without assistance. Say, Mr. Tongue, can't you send down to me a bottle or two of Dr. Pierce's Golden Medical Discovery? Yes. That Buffalo man's remedy. If you do, I can start up at once. When the liver, stomach, or bowels are deranged, or the digestive "forces" are "on a strike," it is the best "agent" to set the wheels of nature in motion. Druggists have it.

Don't hawk, hawk, and blow, blow, disgusting everybody, but use Dr. Sage's Catarrh Remedy.

### FUNERAL SERVICES.

The Methodist church was crowded on last Sabbath morning to its utmost capacity—perhaps a hundred persons stood during the service and many more were unable to gain an entrance and stood on the outside during the funeral service of Harry Baldrich and Joseph Buchanan. The two boys were aged respectively ten and twelve years. They were drowned the day before in the lakelet about one and one-half miles north of the city.

The funeral services were conducted by Rev. G. Lowther, who said in the course of his remarks:

"I speak for the living, not for the dead. Character determines the state of the dead and no words can change it. But this event is full of lessons—among them are the oft recurring truths that 'things intended for blessings become evils when improperly used, or not sufficiently guarded.' This lakelet was looked upon by all as a great blessing. We visit it with pleasure—even delight. What wonder that it should tempt us to bathe in its waters, and in this there is no evil; but this implies danger. There is a point up to which there is no danger, but beyond which the bather goes beyond his depth, and, as it occurred in this case, is drowned. But this only illustrates the common affairs of life.

Many pleasures are good within themselves, which, by their excesses, become sins, and the pathway of life is strewn with the wrecks of humanity on account of venturing a little too far. In all lawful pleasures there is a line of safety beyond which you cannot go without suffering the consequences.

These boys could stand on the bank with perfect safety except in so far as to view the lake tempted them to enter it. They could wade in and continue to go farther and farther as the water grows deeper and deeper and the pleasure becomes greater and greater, until they forget that they are approaching the utmost limit of safety, when suddenly down they go into a deep depression in the bottom lake, the waters close over them, they rise and sink, they rise again and sink, they struggle for a moment and all is over. Oh! if they had not gone quite so far they were safe. But they went to a point beyond which they could not go without danger. Other boys went forth and were not drowned, but these boys drowned and that is proof of danger.

In like manner many persons have been exhorted to restrain themselves in certain indulgences but have argued that there was no harm in them. Others have gone farther and have not been wrecked. I answer others still have been wrecked. It is not better to go to the extreme limit of safety.

If some philanthropic person in this city had thoroughly explored the bottom and erected danger signals, pointing out to the boys and places where safety ends and danger begins, and then they had disregarded them, they would have acted just as we are acting in many of the affairs of life in disregarding the danger signals in the word of God and the experiences of humanity. If they had willfully disobeyed their parents in going; they would then have acted precisely as we act in disregarding the council of a loving Heavenly Father.

We may not like the law that restrains us, or enjoy the danger signal that warns us, but they are given in love by one who loves us as a parent loves his child. To regard them is wisdom and salvation.

—Atechison Champion: A state that builds 812 school houses in one year as Kansas did in 1887, and which supports twenty-three colleges may always be relied on to roll up big Republican majorities.

### HON. B. F. MILTON.

Whose name heads this article has been favorably and prominently mentioned as a suitable candidate for the position of elector from the 7th congressional district. And if purity of character, and a record without blemish coupled with varied attainments, is a recommendation then there is no man more eminently qualified and well fitted to wear the honor and deserving of the entire confidence of the people than Mr. Milton. He came to the state some years ago, and located in Dodge City, since which time he has been faithful in the discharge of every trust imposed upon him by the people. His faith in democracy is firm and unmovable.

As an advocate, both at law and in politics, he is trenchant and convincing, yet kind and affable, though unrelenting in what he conceives to be right. While much more might be said in commendation of Mr. Milton and his claims upon this party, we deem it unnecessary, believing that the democracy in convention assembled will recognize in a befitting manner the demands of south-western Kansas, and in the selection of men to fill the various offices, will act wisely and justly, and recommend by its nominations to the people of Kansas, honest, upright and aggressive candidates whose shibboleths will be the success and prosperity of the democratic party and its principles, and the redemption of our fair young state from the blighting effects of republicanism.

With Mr. Milton as our leader, the ranks of the enemy will become decimated, and victory with her grand results, will be inscribed upon our banner, whose folds will be unfurled to the breeze, upon which will be inscribed, Cleveland and Thurman, the people's choice.

### MORE RAILROADS.

When a company was organized in this city about three months ago and a charter filed with the state officials under the name of the Omaha, Dodge City and Southwestern railroad, having for its purpose the construction of a line of railroad from Omaha to El Paso. Not only many of our neighbors, but a few home friends, treated the matter as a huge joke; when a few days later the necessary funds were raised for making a preliminary survey—were raised in a very few hours—some of the doubting ones began to believe that there might be something in it. And now that operations have actually commenced we hope there are none unconvinced. The matter was in the hands of men whose experience and ability gave the public confidence in the enterprise from the beginning, and they have gone steadily forward with the work. A general prospecting tour was first undertaken by some of the principal movers in the proposition, who found no difficulty in engaging the active cooperation of the principal towns along the proposed line. This has been accomplished to the north line of the state. A general location of the line has been made, and Thursday of last week the surveying corps which had been at work near the city, pulled out for a camp on Sawlog creek. The corps consists of 12 men with two teams and outfit, and the survey which is being made will be accurate and complete, and will be pushed as rapidly as possible. Nothing but an unforeseen misfortune will prevent the early completion of this line, which will be one of the most important railroads in Western Kansas.

### THE REPUBLICAN CONVENTION.

The national republican convention met in Chicago on the 19th inst. Each one of the prominent candidates for president had established their headquarters several days before the date of meeting of the convention. Chairman Jones of the national republican committee called the meeting to order. Although there has been larger gatherings, yet there has never been a better effect of illumination and pictures. The hall is so arranged that every face can be seen—so that the audience, though less than ten thousand, appeared to be almost countless. Chairman Jones introduced Rev. Frank W. Funnasauls, of the Plymouth Congregational church of Chicago who opened the proceedings with prayer after reading the call for the convention. Jones made a speech, in which he congratulated the republican party upon its splendid prospects. He urged the adoption of a platform based upon true republican principles, free from ambiguity, and the nomination of candidates who are the embodiment of these principles.

Chairman Jones then introduced J. S. Thurston, of Nebraska, as the temporary chairman of the convention. Thurston stepped to the front of the platform. He made a very telling speech, his clear resonant voice made his words distinctly heard in all parts of the hall.

The convention then proceeded with the regular order of business. During the speeches any mention of the prominent candidates brought forth rounds of applause from the friends of each one.

The country awaits the result of the convention with great interest. The eyes of the Nation are turned toward Chicago. Republicans every where feel greater interest than at any time during the past eight years. There is so much at stake, and the people all understand the situation.

—Lawrence is offering big inducements to the ladies of the Industrial school to have them locate the school in their city. They offer them the old university building and quite a large sum of money to have them move to that city.

### FOR SPRING DAYS.

## Wall Paper

Immense Variety of Patterns and Price.

Old Newspapers for Shelves and Carpets

5 CENTS PER DOZEN.

## Drink Milk Shake

Very Refreshing. Also Ice Cold Birch Beer and Soda Water.

THE CITY DRUG STORE

## Live and Let Live is Our Motto!

We carry a full line of clothing, dry goods, notions, ladies and gents furnishings, hats, boots, shoes, groceries ect. etc.

We have a complete stock in each department—keep all the fine and medium grades and no cheap plunder.

We guarantee to give you one hundred cents worth of goods for every dollar you give us. Quality is a test of cheapness. We challenge comparison, distance competition and surpass expectation.

While we live we mean business, as life is too short for attempts or pretenses that end in nothing.

Yours truly,

R. M. WRIGHT & Co.

## MINNEOLA.

We have a large number of improved Farms and Stock Ranches located in South Ford County and North Clark County.

These lands can be purchased at low prices and on very easy terms. It will pay you to examine these lands closely. Railroad fare will be refunded to actual settlers who purchase lands of us. These lands are the choicest in Western Kansas. They are located on the

ROCK ISLAND RAILROAD.

Are surrounded by well improved farms, and every convenience of schools, etc. Correspond with us and we will furnish all desired information. Address
